Even New York has to go Outside for Precedent

The Courts of New York have passed upon more points of law than any other state—perhaps more than any other two states. Therefore the following remarks will apply with at least equal force wherever you are practising.

We recently analyzed several volumes of Lawyers' Reports Annotated to find out what percentage of the questions covered by the notes of that series had *not* been passed upon by New York Courts. We found it to be twenty-five per cent.

These are questions like the Note to the Illinois case of *Steinmeyer v. Schroeppel*, reported in vol. 10, L. R. A., New Series, (Dec. 1907) page 114, on

"Mistake in computation by contractor as ground for relief."

This is a question which supposedly might arise in your practice wherever it is. The Note analyzes six American cases (besides the case reported), from three states, one English and one Federal case, and these cases show a decided conflict. *The question has never been passed upon by the courts of New York, Massachusetts, Pennsylvania, New Jersey, Connecticut, Ohio, nor any others but three.*

To prepare your brief on most important questions like this, you must go outside your state for authority. In the Lawyers' Reports Annotated you have no cases of merely local value, such as state reports are crowded with, but you have the late law-making cases on subjects of general value, with notes analyzing and classifying not only all the foreign cases, but your own as well.

Ask for Indexes to Notes to see the great range of subjects covered. In two books of 500 and 100 pages. Send postage only, 20 cents. Also ask for sample pages and special proposition for starting L. R. A. NOW.

A SUPPLEMENTARY VOLUME TO WIGMORE ON EVIDENCE

Professor John H. Wigmore has prepared a supplement to his unrivaled treatise on Evidence, in which all the recent decisions of the courts and the statutes are cited and treated in such a manner that anyone referring to the new volume can see at a glance everything which has been added to the law.

THE NEW MATTER. The judicial modifications, overruling of existing doctrines and new phases of the subject are presented with painstaking thoroughness. The author has commented on and cited 4,000 cases decided and reported since January 1, 1904 (covering more than 6,000 points or citations), and has also cited nearly nine hundred statutes or code sections.

THE PLAN of the supplemental volume includes the restatement of modified doctrines, and new topics decided only in very recent cases. But the adding of later decisions and statutes to supplement those in the main treatise takes up a large part of the work.

IN ARRANGEMENT the Supplement follows the main treatise.

THE INDEX to supplementary matter has been combined with a new and very full General Index. In this Encyclopædia Index to the entire work, different type has been used for the references to the supplementary matter, so that it can readily be seen whether the Supplement, or main treatise, or both should be referred to.

Every owner of a set of Wigmore on Evidence will appreciate the value of the addition of this new material. The publication of the supplementary matter makes this treatise nearly four years later than any other.

COLLIER ON BANKRUPTCY

"Has become the Standard."—Judge Purnell
"A Book Safe to follow."—Judge McPherson

The New Sixth Edition of **COLLIER ON BANKRUPTCY** follows and continues the plan and arrangement of the former editions, which have proven to be the most practical and exhaustive, as well as the most quickly accessible manner of treating the Bankruptcy Law.

It is a complete text book on Practice and Procedure in Bankruptcy, which is treated elaborately from the standpoint of both practitioner and referee. For convenience of reference, also, all paragraphs relating to practice are indexed by sections and easily found by topics in the General Index as well.

A complete General Index is given and in addition, each section, as the chapters into which the book is divided are called, is also indexed, which enables the busy practitioner by turning to the section involved and running over the topical index at the head of it, to at once turn to the object of his quest.

The cross-referencing, which has always been a popular feature of **COLLIER**, makes it possible to refer from the text, not alone to the analogous provisions of former bankruptcy laws, but also to the analogous provisions of the present law and the English Bankruptcy Act.

The General Orders and Official Forms are not only discussed in the body of the text, but are annotated, and to these are added Supplementary Forms.

These Supplementary Forms are not only carefully indexed, but are also listed and arranged to conform to the sections of the law.

COLLIER ON BANKRUPTCY is a treatise, hand-book on practice, digest, table of cases and form book combined.

In this edition every section and every provision of the Bankruptcy Act has received most careful study.

IN 6 VOLUMES, ILLUSTRATED, LEATHER STYLE BINDING

This most important work for every man and woman in America, describes and prescribes for the common ailments that can be safely treated in the family. It is a scientific work done by specialists and, therefore, has the approval of your physician. It is a reference work as important in the home as a dictionary or a cook book—a home study in the art of living, interesting to read, and safe and wholesome for the education of youth. Associated in this work with Dr. Kenelm Winslow, a former Harvard Professor, were 23 eminent specialists.

IF YOU HAVE NEVER BOUGHT A BOOK

in your life these six volumes should have a place in your household, where every member can have the benefit of their help. The advice and instruction in one chapter may to-morrow be worth one hundred times the price to-day. The richest man in the world cannot buy health when it is too late. The most influential man in the world cannot always be waited on immediately by a good physician. It is well to know what to do until the physician arrives. It is well to gain a knowledge that will help the physician to get results.

EVERYONE CAN READ AND UNDERSTAND IT

It is written in the simplest and clearest language, with no technical talk that could puzzle the layman. The remedies and treatments resulting from the latest scientific knowledge are given. The manner of nursing and precautions in case of infectious diseases are simply set forth. There are no gruesome pictures for morbid minds, but plenty of instructive illustrations. The surprise is that we can offer so much for so little money—2,000 pages of priceless advice and instruction—an investment of thousands of dollars, estimating the time of these great specialists, to say nothing of the time and capital of the publishers. Here is the reason—we want to emphasize the necessity to you of the Review of Reviews in your home this year of great issues incidental to a presidential campaign. For this reason we are willing to let you have the books for the cost of paper and printing.

OUR OFFER This first edition we are going to ship to responsible persons who send **50 CENTS**, engaging to pay \$1 a month for only seven months—and each purchaser will receive the **REVIEW OF REVIEWS** for two full years—or \$7 pays for the books and the two years' subscription.
